

38. CART Cells - Cell therapy for cancer

1 unit, Karlo Perica, November 24, 2025

The broad outline line will be:

I. Cell therapies in the clinic

II. Gene editing toolbox

III. Addressing key challenges in cell therapy

In addition to the paper, I recommend the following short tutorials from addgene:

<https://www.addgene.org/viral-vectors/>

<https://www.addgene.org/guides/lentivirus/>

<https://www.addgene.org/guides/aav/>
